## TE HEAMANA/FROM THE CHAIR

Tēnā koutou katoa,

Firstly, on behalf of the Medical Radiation Technologists Board, I would like to thank you for your prompt APC applications and acknowledge that payment issues may have caused inconveniences for some of you. Please accept my apologies – this has now been resolved and hopefully will not occur again next year.

With the ongoing review of the country's pandemic settings and as the world reopens to travellers, the Board is aware that some of you will take the opportunity to seek work and adventures overseas. As a reminder, if you are planning on working outside of New Zealand, please ensure that you contact the Board's staff with your overseas contact details. You can find more information on the 'Working Overseas' page on the Board's website.

Ngā mihi,

**Billie Mudie**  
MRTB Chair

---

### YOUR RESPONSIBILITY

*Once you are registered, you have a legal requirement to notify the Board of any changes to your residential, postal or work address within one month of the change. You can do this by logging into "My Profile" on the website.*

### BOARD'S RESPONSIBILITY

*The primary responsibility of the Board is to protect the health and safety of the New Zealand public by ensuring practitioners registered with the Board are competent and fit to practise.*

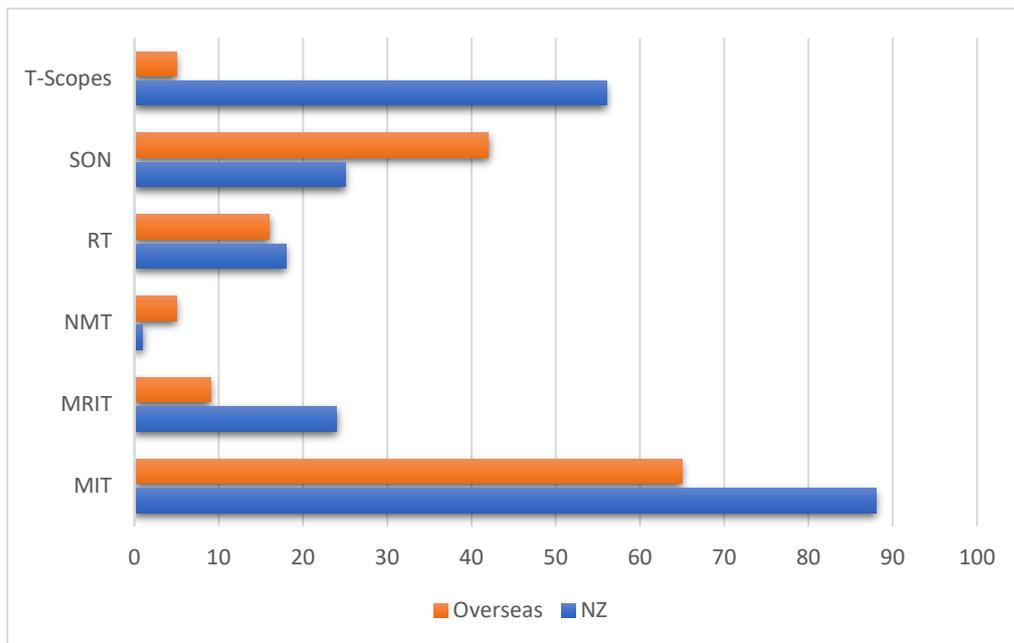

## CPD Audit Reminder

The CPD audit for the 1 April 2020 to 31 March 2023 trimester will be held later this year. Audit selection communication will be sent out in the near future.

---

## New Registrations 2021/2022 year

It is of note that despite the disruptions the Covid-19 pandemic has created, the Board continued to receive applications for registration from overseas practitioners.

---

## Online Examination Outcomes 2021/2022 year

A total of 45 candidates across the five scopes of practice sat the online examination in the 2021/2022 year. The overall pass rate across the five scopes of practice was 44%.
